STATE OF NEW HAMPSHIRE.

To the inhabitants of the Town of Lee, N. H., in the County of Strafford in said state, qualified to vote in town affairs.

You are hereby notified to meet at the Town Hall in said Lee on Tuesday, the eighth day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation for the same.
3. To see if the town will vote, raise and appropriate a sum of money sufficient to secure State Aid for Highways.
4. To see if the town will vote to raise and appropriate $100 for control of the White Pine Blister Rust.
5. To bring in your ballots upon each of the questions submitted by the Convention to Revise the Constitution relative to the amendments proposed by said Convention at a session held on January 28, 1921.

Given under our hands and seal:

HORACE G. HILL,
BENJAMIN LANG,
PERRY L. HARVEY,
Selectmen of Lee.

A true copy of Warrant—Attest:

HORACE G. HILL,
BENJAMIN LANG,
PERRY L. HARVEY,
Selectmen of Lee.
STATE OF NEW HAMPSHIRE.

Inventory of the Town of Lee for the year 1920.

THE STATE OF NEW HAMPSHIRE.

To the Inhabitants of the School District in the Town of Lee, qualified to vote in district affairs:

You are hereby notified to meet at the Town House in said district on the nineteenth day of March, 1921, at two o'clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To hear the reports of Agents, Auditors, Committees or Officers chosen, and pass any vote relating thereto.
6. To choose Agents, Auditors and Committees in relation to any subject embraced in this Warrant.
7. To see how much money the District will raise and appropriate for the support of schools.
8. To see what sum of money the District will vote to raise and appropriate to make necessary repairs in the South School building.

Given under our hands at said Lee.

WILLIAM H. THOMPSON,
HELEN B. McRAE,
FRED P. COMINGS,
School Board.

A true copy of Warrant—Attest:

WILLIAM H. THOMPSON,
HELEN B. McRAE,
FRED P. COMINGS,
School Board.
REPORT OF THE SCHOOL BOARD OF LEE.

For the year Sept. 1, 1919, to Sept. 1, 1920.

EXPENDITURES.

Salaries of District Officers, $65 00
Superintendents salary, 211 45
School census, 5 00
Expense of administration, 39 92

$321 37

TEACHERS SALARIES.

Greta B. Gulliver, $612 00
Esther Goodall, 240 00
Ellen C. Hoitt, 484 00
Stella P. Wentworth, 357 00
Martha Walker, 175 00

$1,868 00

Text books, $155 30
Scholars supplies, 132 49
Flags and appurtenances, 7 68
Other expenses of instruction, 6 68
Janitor service, 49 80
Fuel, 130 50

1. Available from taxation, $5.00 per $1,000 . $2,680 12
2. Selectmen's assessment for H. S. tuition . 800 00
3. Selectmen's assessment for salaries District officers, ................. 70 00
4. Selectmen's assessment for per capita supervisory tax, .................. 180 00
5. Dog licenses, ...................................... 20 00
6. Elementary school tuition, ........................ 40 00
7. Appropriation for repairs and alterations, ............. 300 00

$4,090 12
REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the Board of Education:

February 10, 1921.

I have the honor to submit a report of my service from September 1, 1920, to February 1, 1921. It was a matter of great satisfaction in taking up the work of supervision to find that my predecessor had left matters in a most excellent state of organization.

The teaching positions, with one exception, had been filled by the selection of experienced and capable teachers who have given us splendid service. The clerical details had been attended to so carefully that it was a simple matter to carry on the routine of office work. The enlargement of the Supervisory Union, of which the Lee District was a unit, has made it impossible for a superintendent to give as much attention to any one district as formerly, but it has been the purpose of your present Superintendent to be immediately available whenever his services were sought, for any form of community enterprise. The forethought of the joint committee of the Union in providing clerical assistance made it possible for me to spend the greater part of my time in actual supervision and in developing educational plans. The arrangement during the present year, of providing a substitute teacher and clerk for the Union, has proved to be beneficial. While only two districts have needed her teaching service thus far, this teacher has been able to give valuable aid in the exacting work of child accounting, collection of data, and tabulating standardized test scores. Furthermore,
she is available, in case of need, to substitute for any teacher in the Union.

**Teachers.**

Between 300,000 and 400,000 children were deprived of schooling last year as a result of the shortage of teachers, according to estimates made by P. P. Claxton, Federal Commissioner of Public Education. No relief for the situation is seen by the commissioner. From 110,000 to 150,000 new teachers will be needed next year, but there will be only 30,000 prepared teachers to fill vacancies, leaving a deficiency of 80,000.

Fortunately, in spite of the dearth of teachers, we secured valuable assistants to conduct the work of instruction in our schools. These teachers had records of successful experience elsewhere and they have done excellent work for us. They have inculcated in the pupils a commendable spirit of co-operative interest which augurs well for the future development of our school system. With the retention of our present staff, the schools will continue to prosper. In view of the unusual living conditions forced upon them, we have secured our teaching staff at remarkably low salaries. The average wage was $581 for the year 1919. This amounts to $11.17 per week, for the twelve months during which a teacher must pay her living expenses. During the school year she must pay $5.50 per week for board and room, leaving $5.67 per week for clothing, traveling expenses, professional advancement, sickness, insurance, benevolence and thrift. No wonder that a noted educator said recently: "Teaching is not a profession now, it is a procession." The attractive financial returns of various branches of industry make it increasingly difficult to find men and women who are willing to give the best years of their lives to the education of our children without hope, at least, of a living wage in return. The situa-
tion is serious. Even by offering attractive wages teachers cannot be obtained in sufficient numbers to keep all schools open. The towns that provide the best conditions will suffer least in the pedagogical famine.

Our qualifications for teachers are becoming more rigid as we endeavor to surround our boys and girls with noble characters possessing a high standard of professional skill. It is no longer possible for a teacher to eke out her meager stipend by gainful employment during the summer. She must make herself increasingly efficient by advanced professional study and by mental and physical recuperation. We should do all possible to aid our teachers to secure a freshness and vigor in their work which will react for the mental and moral growth of our children.

An increase of about 25 per cent in the salary schedule for the current year has relieved, in part, the acute financial situation in which one who tried to teach and live in Lee became involved. Our present corps of teachers is a fine body of co-operating assistants, and we have been fortunate to retain their services for so long a period at the salary offered. Due to dissatisfaction with living conditions, it has been necessary to change teachers at the Center on two different occasions.

Following is the teaching roster at present:

Greta B. Gulliver, South School, graduate of Augusta, Me., High School, 1915, election 1919.

Marian D. Cram, Center School, graduate of New Hampshire College, 1916, election 1920.

Ellen C. Hoitt, North School, graduate of Dover High School, 1919, election 1920.

School Organization.

In line with modern educational development, we should organize our program of study to conform to the finding of
experts in education who have made exhaustive investigation looking toward the most rapid and thorough training of the body, mind and spirit of the normal child. It is our desire to bring our schools into the van of the standard schools of the State. To do this we should adhere to the curricula suggested by the State Board of Education, which propose concrete work in subjects which offer opportunity for the child to display his inventive proclivities and which develop and sustain an interest in experimental activities. The line of demarcation for this progressive development is at the seventh grade. Here an introduction into several fields of knowledge, such as Practical Arts, Science, Concrete Mathematics and Foreign Languages, often awakens latent power or stimulates a will to know and to achieve. In former days our methods were much wedded to formal discipline and emphasis was placed upon subjects lending themselves most readily to drill and abstraction. This course tended to an increase in the rate of educational mortality which, a decade ago, had reached alarming proportions. The new program tends to keep the children in school beyond the eighth grade; and, furthermore, it is of assistance in the matter of vocational guidance.

The program which I would like to introduce into our schools would be entire and desirable of itself; but furthermore, it is closely correlated with the advanced secondary programs of neighboring high schools. It is as follows:

Grade 7 A. Subjects: Days Periods

<table>
<thead>
<tr>

<tr>
<td></td>
<td>Man. Training or Cooking, Sewing,</td>
<td>2</td>
</tr>
<tr>
<td></td>
<td>B. &amp; C. Subjects: as above,</td>
<td>5</td>
</tr>
</tbody>
</table>

The above program could not be carried out in a mixed school to its logical conclusion; but if the district should decide to place the seventh and eighth grades in a room by themselves, one of our teachers could present the above courses while our other two teachers could then limit their efforts to the first six grades. In the meantime our pupils who cannot attend a high school are deprived of the advantage of the above enriched curriculum. It is earnestly hoped that full consideration will be given to the advantage of a consolidated school such as is enjoyed by Greenland and Durham. The adoption of a plan for a central school always has operated to the financial as well as the educational advantage of a town. It seems to attract new residents, to increase the value of property, and, ultimately, to establish the tax rate at a stable and satisfactory per centum.

**Alterations of Buildings.**

In accordance with the vote of last March, the Center school building has been converted into a standard school home for our boys and girls in that section of the town. Consideration should now be given to the needs of the build-
ing which houses more than half of our school population. The toxic effect of fatigue is quickly evidenced in this school because of insufficient and improperly arranged light area, inadequate heating and ventilating apparatus, and a seating arrangement that long has been in the discard among progressive schools. The pupils in our schools are a splendid asset of our town—the best asset which it possesses. Let us determine that this asset shall be conserved, nourished and developed in an atmosphere that is invigorating, healthful and homelike.

Health Supervision.

In accordance with the beneficent provision of the new educational law all pupils received the services of a medical inspector, whose diagnosis of physical defects, at least, relieved thoughtful parents and guardians of the bliss of ignorance. If the part time service of a district nurse could be secured to follow up the cases needing attention, the district would be more nearly fulfilling its function as a guardian of child welfare.

Following is the Health Summary:
Examiner, Dr. J. D. Butler. School year, 1919–1920.
No. of pupils examined, 87.
No. of teachers examined, 4.
Cases found by examiner: Anaemia, 1; defective teeth, 33; nervous disease, 1; hypertrophical tonsils, 11; adenoids, 3; enlarged glands, 1; mal-nutrition, 1; unvaccinated, 42; defective vision, 1. Parents were notified of these defects and the law regarding vaccination was enforced.

Co-operation on the part of parents in the remedying of the indicated defects would not only confer a lasting blessing upon the afflicted child, but would also react to promote better attendance at school and higher accomplishment in the class room.
### School Census

**1919** | **1920***
---|---
Whole No. of children 5-16 years of age: | Boys, 28 | Boys, 43
Girls, 45 | Girls, 40

</table>

Figures in heavy type denote normal ages. Age of admission should be six to seven years, but the majority of our children have been admitted in previous years at the age of five. Based upon that age of admission, the percentage of retardation is very high.

The particular disgrace brought upon our schools last year was the lack of respect for the law of school attendance and the laxity of parental discipline manifested by those whose duty it was to place pupils in school at the beginning of the session. A good parent-citizen will respect the law which requires one having the custody of a child to cause said child to be in an assigned school “all the time the school is in session.” If a session opens at 9:00 A.M., and a pupil is not present until 9:01 A.M., a law of the State and of parental discipline has been violated. We do not need to concern ourselves with the bolshevist alien in our large cities so much as we should with the lack of respect for law and order in our own citizen group. The average attendance last year was 91%, which is below the average for the State. A percentage lower than 95 is poor. The record of tardiness is the blackest blot on our school system. There may be a good reason for an absence, but there usually is none for a tardiness. The State average of per pupil tardiness last year was .3. The average in the schools of Lee was 2.9.
The co-operation of parents, pupils, teachers and citizens is solicited to develop a better public spirit than is indicated in this record.

**Measurements.**

In line with recent investigation of a diagnostic character the work of the classroom has been subjected to comparison with standardized scales or measures which give a more accurate criterion by which to pass upon the work of the pupil than would be obtained if the merit of the work were judged by the opinion of the teachers or superintendent. The application of these scales is of great value in grouping more accurately those pupils whose achievement shows that they should work together. In general the tests showed our pupils to be generally above the median in arithmetic and below the average in reading ability. The Weedy tests, series B in arithmetic, and the Adams tests in reading revealed the following achievements:

The diagnostic value of these and similar tests is readily seen and the natural deduction is that teachers should familiarize themselves with scientific methods in order to study the results with a view of correcting revealed deficiencies.
Morale.

The depressing effect of a lack of community spirit communicates itself very readily to the impressionable child. If parents are not sufficiently interested in our schools to visit them, to hold conferences with teachers, to require prompt and continuous attendance by their children, then the morale of any school system must remain low in spite of a zealous teaching and administrative staff. Our attendance record has not been as good as it should be. Interest in school life must be fostered by every conceivable method to remedy such a condition. Vocational courses, organized plays and games, in a well-equipped playground, social diversions, opportunity for public appearance at entertainments and dramatic exercises, all will aid in building up a better "school spirit."

Conclusion.

With full recognition of the claims of six districts which comprise his Supervisory Union, your Superintendent has endeavored to give an impartial allotment of his time, talent and energy to each one. He recognizes that twenty-four hours do not hold enough minutes to enable him to give his attention to the many problems pressing for solution. However, he is appreciative of the sympathetic support of the members of your board, the loyal co-operation of our splendid staff of teachers, and the ready response of parents and pupils for the successful issue of any plans he may have promulgated.

Early in the year the entire corps of teachers in the Union were called together for a conference on aims and methods for the year's work. Among others, this observation was made: "The social efficiency of our product will be the test of our success as teachers. Our educational youth must possess a threefold endowment—a fund of habits, a fund of
ideals and a fund of knowledge." We press on to this goal. An association of the teachers was formed, and monthly meetings, at which attendance is voluntary, have been held. These have been conducted by the teachers themselves and have been provocative of much cultural value as well as the development of professional pride in achievement. Your Superintendent has been in attendance at each meeting of the association. He has also attended the State Teachers Association of New Hampshire and Maine, the Rockingham and Strafford County Institutes, five Superintendents Conferences, held by the State Board, the New England Superintendents Conference, and attended the summer session at Columbia University. He was called upon to deliver fifty-six public addresses during the year 1919-1920, and has responded to thirty-eight more requests thus far this year.

Respectfully submitted,

JUSTIN O. WELLMAN,
Superintendent of Schools.
REPORT OF TREASURER OF LEE SCHOOL DISTRICT.

Amount in treasury Aug. 31, 1919, $418 42
Received from Town, 3,603 79
Received from Barrington, 18 00

$4,040 21

EXPENDITURES.
Paid orders of School Board, $3,509 85
Balance on hand, Aug. 31, 1920, 530 38

$4,040 21

FRANK I. CALDWELL,
Treasurer.

We certify that we have examined the accounts of the School Treasurer and find them correct.

G. H. SAWYER,
F. C. YORK,
Auditors.
